EASTSIDE UTILITY DISTRICT

WATER SERVICE CONTRACT…

Chattanooga, Tennessee ……..……..……20……..

Please complete the contract and include a digital picture or a scanned copy of your driver's license. E-mail both files to: contract@eastsideutility.com

I hereby make application to the EASTSIDE UTILITY DISTRICT of Hamilton & Bradley County, Tennessee:

- ◯ To be supplied with water service
- ◯ For the installation of a water meter, size _____ inch.

I agree to pay in advance to the District for the service requested the sum of $15.00 as a nonrefundable charge.

As further consideration for the furnishing of this service I understand and agree:

1. That I will be responsible for the payment of all metered water, whether used by me or lost due to waste or leakage or any other cause not traceable to the fault of the District, until I have furnished the District with a request for termination of water service. Payment will be made within fifteen days from the date on which bill is rendered, and for failure to pay the amount due the water service may be discontinued at the discretion of the District. If the water service is discontinued for nonpayment, I agree that the District may charge a reconnection fee of $35.00 before again providing service, after all arrearages are paid. For reinstatement of service after 4:00 PM on a regular work day, a holiday, or during the weekend a charge of $65.00 will be added. A charge of $20.00 must be paid to keep service on if a utility employee has left the office for the disconnect but has not actually turned the water off yet.
2. That the charges for water service shall be in accordance with the published water rates prevailing in the District from time to time, as fixed by the Board of Commissioners.
3. That the water meter and all connections and appurtenances thereto, including the meter box, are the property of the District and customer agrees not to invade or, in any manner, tamper with such property. The service line, from the point of connection with the meter outlet to its extremities, is the property of the owner of the real estate receiving water service and is his sole responsibility and not that of the District.
4. That I am not entitled to and will not claim damages on account of the stoppage of the flow of water resulting from accident, or when necessary to make alterations, repairs or improvements.
5. That the use of water from this meter shall be confined strictly to ONE HOUSEHOLD, residence or business including out-buildings or servants quarters located on said premises; and I agree not to pipe or permit others to pipe water to other property or buildings. Violation of this condition shall give the EASTSIDE UTILITY DISTRICT, its successors or assigns, full right to immediately discontinue water service under this contract, without notice.
6. That the District assumes no responsibility for damages occurring due to pressure, and the customer assumes full responsibility for providing such pressure regulating valves or apparatus as may be required. (It is not the responsibility or subject to the control of the District, but it is recommended that a pressure reducing valve be installed on the end of the copper pipe "pigtail" coming from the meter before connecting with the service line, especially if the service line is PVC.)
7. I understand that seasonal or other conditions beyond the District's control may cause temporary, complete or partial diminution or interruption of water service and, in this connection I agree to accept water services as conditions may require, including rationing, and to comply with all regulations duly promulgated by the Commissioners of EASTSIDE UTILITY DISTRICT.
