

# EASTSIDE UTILITY DISTRICT

91001

## WATER SERVICE CONTRACT

Chattanooga, Tennessee \_\_\_\_\_ 20\_\_\_\_\_

I hereby make an application to the EASTSIDE UTILITY DISTRICT of Hamilton & Bradley County, Tennessee:

To be supplied with water service

For the installation of a water meter, size \_\_\_\_\_ inch.

Capacity Fee \_\_\_\_\_ Meter Size \_\_\_\_\_

I agree to pay in advance to the District for the service requested the sum of \$ \_\_\_\_\_ as a non-refundable charge.

As further consideration for the furnishing of this service I understand and agree:

1. That I will be responsible for the payment of all metered water, whether used by me or lost due to waste or leakage or any other cause not traceable to the fault of the District, until I have furnished the District with a request for termination of water service. Payment will be made within fifteen (15) days of the date on which the bill is rendered, and for failure to pay the amount due to the water service may be discontinued at the discretion of the District. If the water service is discontinued for nonpayment, I agree that the District may charge a reconnection fee of \$35.00 before providing service again, and after all arrearages are paid. For reinstatement of service after 4:00 PM on a regular workday, a holiday, or during the weekend a charge of \$65.00 will be added. A charge of \$20.00 must be paid to keep the service on if a utility employee has left the office for the disconnect but has not actually turned the water off yet.

2. That the charges for water service shall be in accordance with the published water rates pre- vailing in the District from time to time, as fixed by the Board of Commissioners.

3. That the water meter and all connections and appurtenances thereto, including the meter box, are the property of the District. The customer agrees not to invade or tamper with such property. The Customer could have to pay for the repairs if damaged. The service line, from the point of connection with the meter outlet to its extremities, is the property of the owner of the real estate receiving water service. It is the sole responsibility of the customer and not that of the District.

4. That I am not entitled to and will not claim damages on account of the stoppage of the flow of water resulting from accident, or when necessary to make alterations, repairs or improvements.

5. That the use of water from this meter shall be confined strictly to ONE HOUSEHOLD, residence or business including out-buildings or servants quarters located on said premises; and I agree not to pipe or permit others to pipe water to other property or buildings. Violation of this condition shall give the EASTSIDE UTILITY DISTRICT, its successors or assigns, full right to immediately discontinue the water service under this contract, without notice.

6. That the District assumes no responsibility for damage occurring due to variant pressures. The customer assumes full responsibility for providing apparatus' such as a pressure regulating valve and a shut off valve for customer use. (It is NOT the responsibility or subject to the control of the District, but it is recommended that both pressure reducing valve and shut off valve be installed on the end of the copper pipe "pigtail" coming from the meter and located on the customers side and OUTSIDE of the District Meter Box.

7. I understand that seasonal or other conditions beyond the District's control may cause temporary, complete or partial diminution or interruption of water service and, in this connection, I agree to accept water services as conditions may require, including rationing, and to comply with all regulations duly promulgated by the Commissioners of EASTSIDE UTILITY DISTRICT.
